

DOUBLE EMBOSSED CLADDING

Homeowner

HOMELINE

Welcome to HomeLine

HomeLine double embossed cladding, offers homeowners and developers, an ideal solution when looking for a realistic timber effect cladding system for a property.

Inspired by the natural harmony of timber, but with none of the drawbacks, our complete range of double embossed cladding allows properties to benefit from a low maintenance solution, that is tactile, cost effective and easy to install.

Authentic Texture with No Draw Backs

To appear similar to timber, our innovative double embossed cladding is made using PVC-U and features an authentic embossed pattern for the perfect finish.

Versatility

The versatility of our double embossed cladding is endless.

This innovative cladding solution is ideally suited to existing dwellings, where the cladding can be used for dormers, extensions, gables and bay windows.

It looks just as good when used as a decorative feature, through to complete coverings for the side elevations of homes.

But with modern living increasing the popularity of garden and office rooms, out houses, extensions, garages, swimming pool rooms and more, then double embossed cladding shows no limits.

Endless Possibilities

Dormers

Porch

Front of House

Gable End

Garage

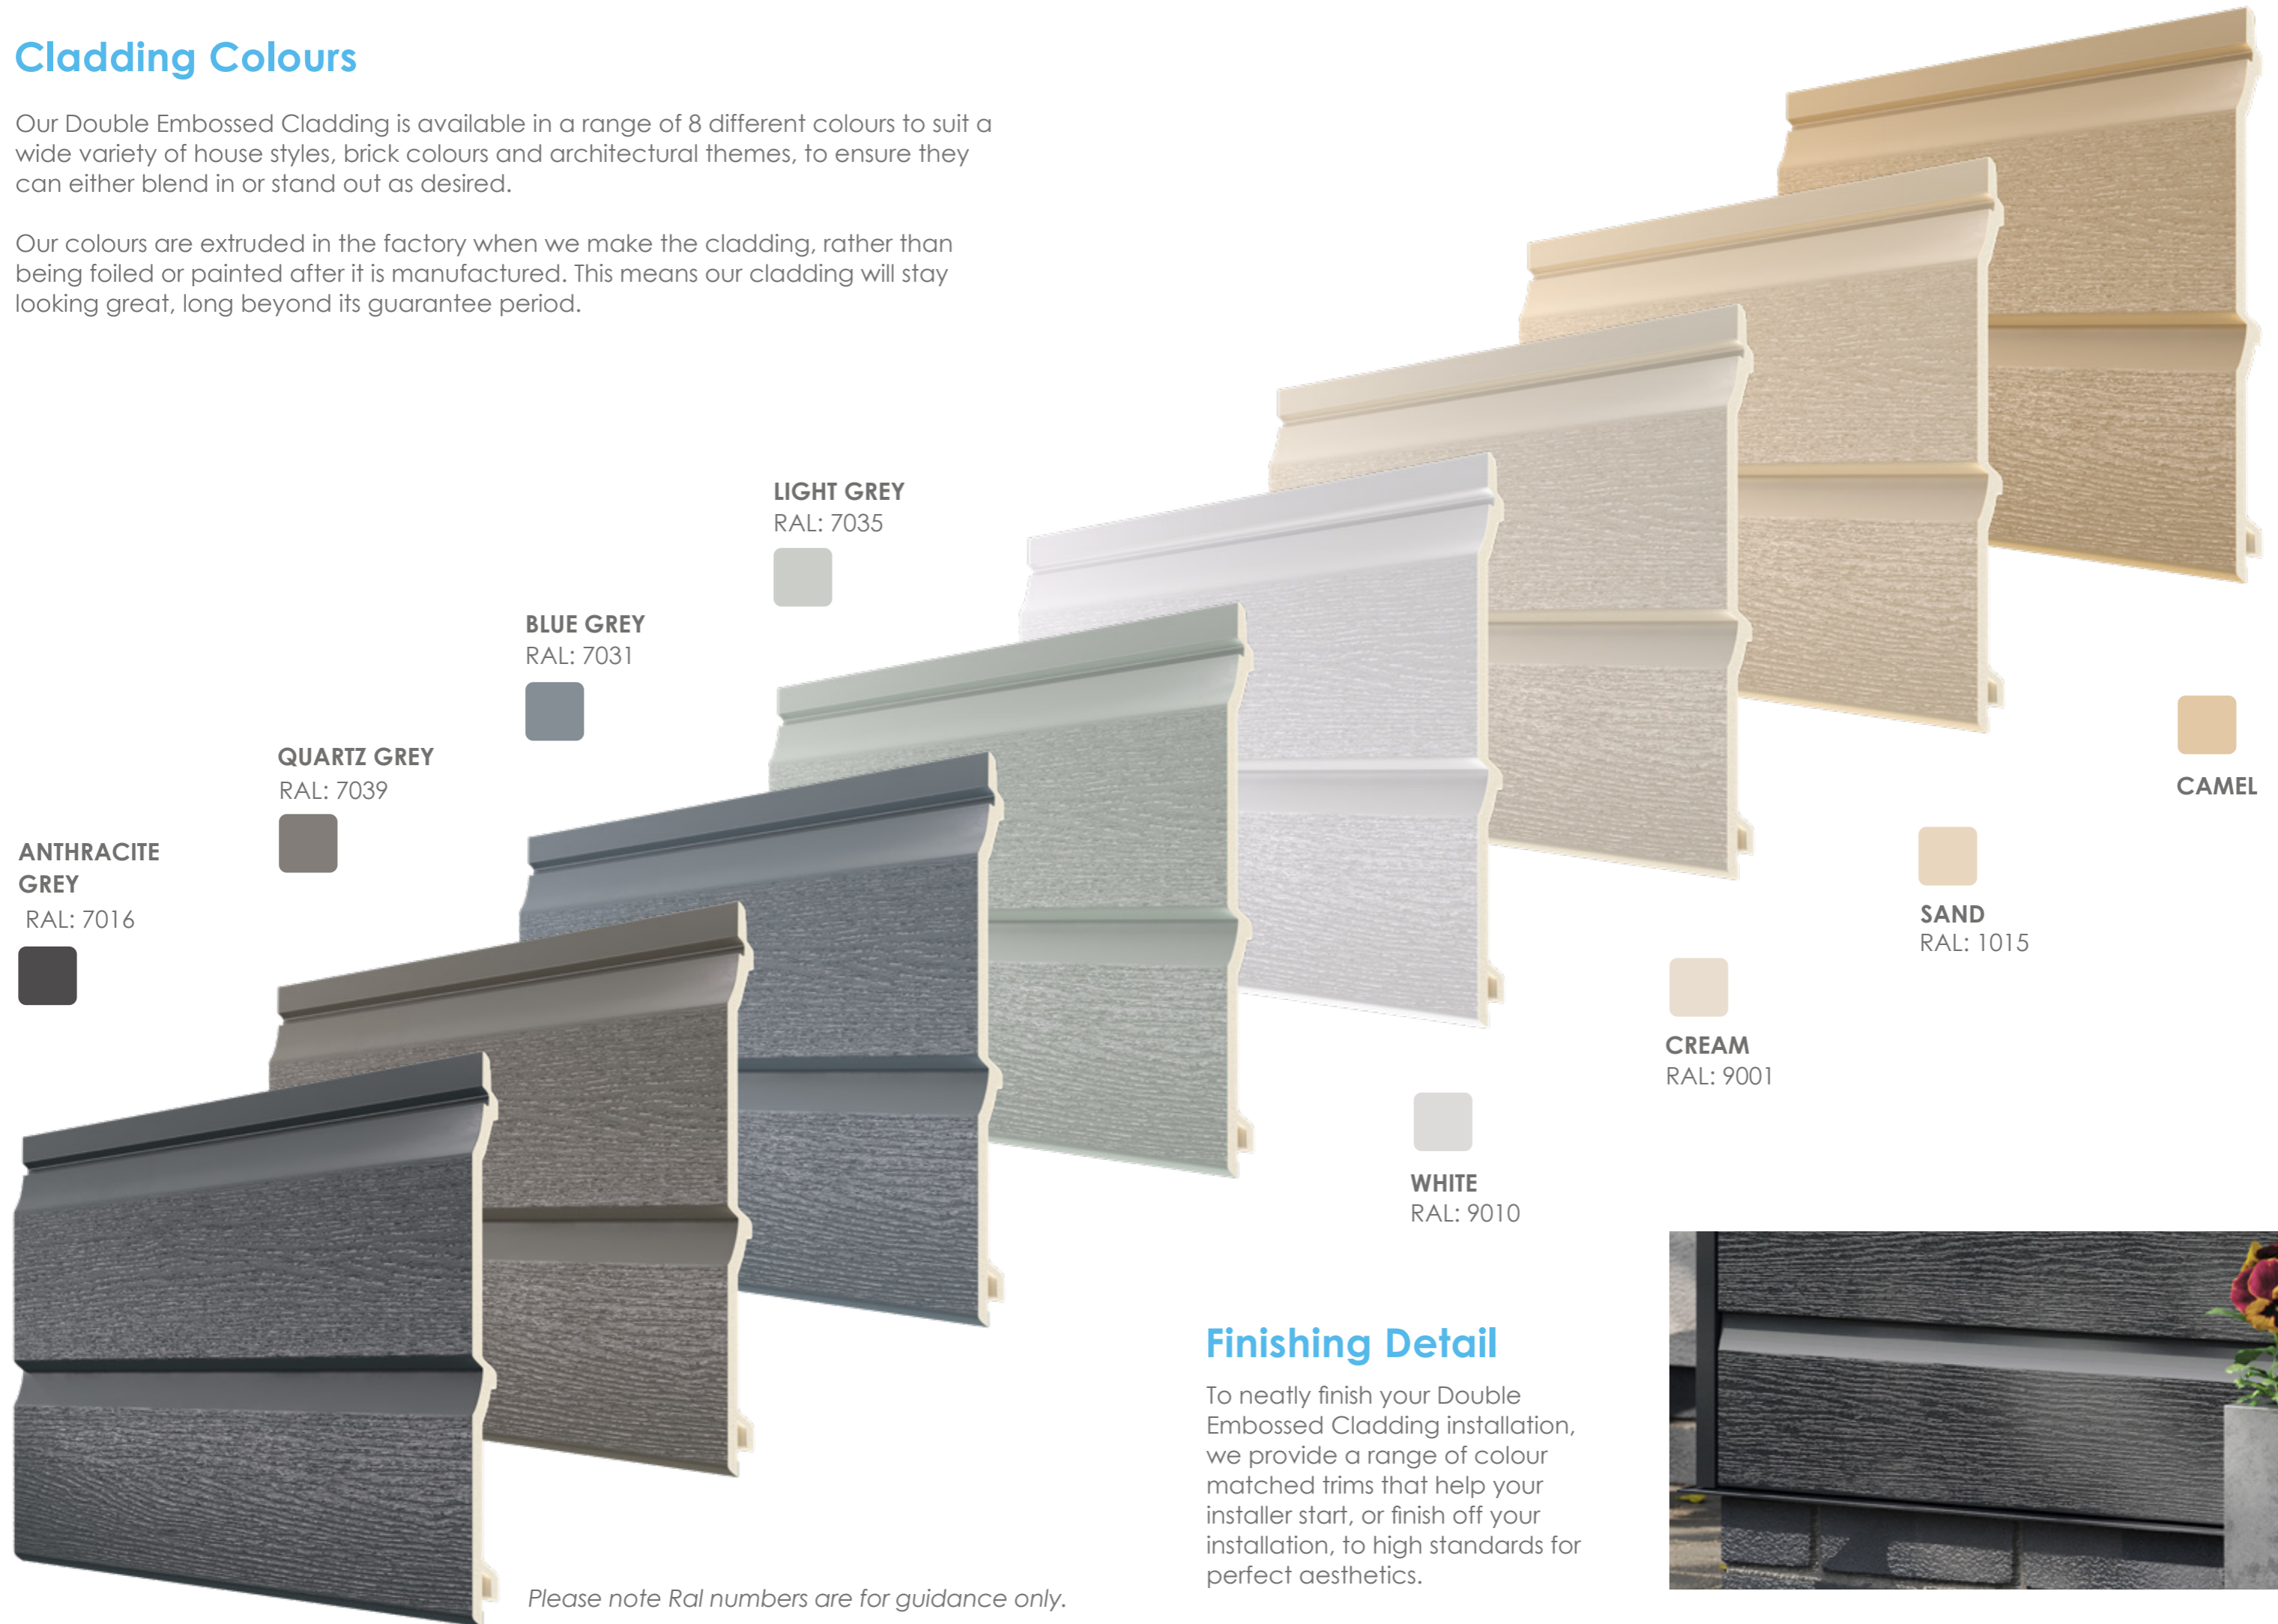

Garden Room

Go to page 10 for further details.

Cladding Colours

Our Double Embossed Cladding is available in a range of 8 different colours to suit a wide variety of house styles, brick colours and architectural themes, to ensure they can either blend in or stand out as desired.

Our colours are extruded in the factory when we make the cladding, rather than being foiled or painted after it is manufactured. This means our cladding will stay looking great, long beyond its guarantee period.

Finishing Detail

To neatly finish your Double Embossed Cladding installation, we provide a range of colour matched trims that help your installer start, or finish off your installation, to high standards for perfect aesthetics.

Woodgrain Texture

A delicately designed woodgrain texture is embossed into the skin during the manufacturing process, to give a realistic timber appearance to the finished product.

Matt Finish

A subtle non reflective matt finish provides a smooth look for all external applications.

Double Plank Profile

Double embossed cladding features two planks that are extruded as one piece. This allows for faster installations, better aesthetics and improved weatherability.

10
YEARS

Our Guarantee

For full comprehensive guarantee please see page 11.

Elevate your Exterior

Double embossed cladding can completely transform and elevate any style of property to create a stunning and stylish home.

Benefits of Choosing Double Embossed Cladding

Superior Versatility

Works well in wide range of settings and applications, as well as providing a decorative touch to any property. It is fast and easy to install for trade professionals and DIY'ers alike.

Timber Appearance

Inspired by traditional timber cladding but features all the advantages of low maintenance PVC-U. This means it won't swell, crack, absorb moisture and distort causing further issues.

Low Maintenance

Not only is our range of cladding low maintenance, but it requires no painting or staining like timber would to maintain its appearance. This ensures our cladding can be used on coastal properties, through to town houses and countryside homes.

Designed and made for British Homes

The woodgrain embossed effect has been carefully designed and manufactured with UK homes in mind. This means the finish will complement UK made windows, doors and rooflines.

Endless Possibilities for Embossed Cladding

Our versatile cladding system can be used across a variety of applications, providing endless possibilities. Some inspirational applications include, but aren't limited to -

Dormers

Dormers can create a great architectural feature protruding from the roof area, making them perfect for embossed cladding to provide a decorative finish in a wide range of 8 colours.

Porch

Help show off your front door by using embossed cladding as a stunning finishing detail, to both the front and side elevations of the porch. It can also be used as an embossed feature above your door, should you have a gable.

Front of House

Go the full distance and use embossed cladding to create stunning kerb appeal for your home. Our distinctive cladding can add that touch of class and woodgrain effect you are searching for.

Gable End

Similar to gables above porches, our cladding can be used to complete the gable end of your property. It looks particularly striking when run from the roofline edge towards the top of the gable end.

Garage

What better way is there than to finish a standalone garage with double embossed timber effect cladding. It is quick and easy to install, whilst being easy to maintain and easy to clean down.

Garden Room

Garden rooms are growing in popularity, with many now being finished with light weight, low maintenance double embossed cladding. It can be run both vertically and horizontally depending on your requirements.

HOMELINE

“HomeLine, with over 30 years of experience, are market leading specialists in low maintenance PVC-U building products, supplying thousands of sites across the country with BBA approved fascias, cladding, rainwater and trims. We also offer the largest range of recycled roofline systems available.”

Our Guarantee:

HomeLine offers a 10 year guarantee on the following colours - White, Cream, Sand & Light Grey. A 5 year guarantee is offered on Anthracite Grey, Quartz Grey, Blue Grey & Camel. The guarantee period ensure that colours will not excessively discolour as a result of natural light.

As with all installations, expert fitting is essential by following our detailed guidelines. As with all cladding materials, especially darker colours, it is important fixing guidelines are followed to ensure complete satisfaction with our quality products. Please see our installation instructions at GAP.uk.com.

Low Maintenance Cladding Systems.

Texture Perfect.
