

# Specialist Roof Division

We are here to help with all your glazed or solid roof projects. An example of the products we can offer are shown below.

## Lanterns

Provides a stunning focal point for any kitchen, living room or dining room. Thanks to a strong ridge, the Wendland lantern has less bars than other lanterns and no visible fixings. Several thermal breaks are used to avoid condensation build-up.

- Clip fit features – fast to fit
- RidgeLOCK – perfect fit every time
- Simple neat design
- High thermal performance
- No visible fixings
- Less bars than other lanterns
- Any RAL Colour available
- Choice of aluminium or PVCu
- 20° pitch
- Choice of blue or neutral glazing

## Sky Lights

Skylights are the perfect choice for an extension or orangery. The unique design features edge-to-edge glass for a modern look – meaning that from the inside, you see only the sky above. Wendland flat skylight is a 'click to fit' design and faster to install than other skylights, so there's minimal disruption during the installation.

- Edge-to-edge glass
- Click-fit installation
- Noise reducing glass
- Optional insulated kerb
- U-Value of only 1.2
- Slim aluminium surround
- Any RAL Colour available
- Choice of clear or blue glass
- Fineline plasterboard trim included

## Ultrarroof – Tiled Roof

Ultrarroof is the modern way to build an extension on your home. It can be used to create a roof in any shape or size and it never needs a tie bar – so the inside of your extension will always have a vaulted ceiling that is open, without any bars or beams. Full length glass panels fill your new room with natural light, or if you prefer, Velux style windows can be added. If you want bi-fold doors, Ultrarroof is so strong that the doors can be up to 4m wide before any costly structural support is needed, saving you money.

- Fast to fit, build and install
- The lightest tiled roof on the market – only 38kg/m2
- Highly insulated U-Value as low as 0.13
- Never needs a tie bar
- Spans up to 4m – save money on steels
- Fully fire tested
- Engineered to postcode
- 10 year guarantee
- Elevated vaulted ceiling
- Full length glazing

## Livinroof – Solid Roof

Homeowners no longer have to choose between a solid or glass conservatory roof. That's because Livinroof from combines the best of both with its mix of highly insulated grey panels and glazed areas. From the outside, Livinroof has the appearance of a modern grey conservatory roof but from the inside, Livinroof has a beautiful plastered ceiling, just like any extension. The Livinroof system from Wendland is a great choice to quickly and easily replace your old conservatory roof, creating a warm, cosy, bright room in no time at all.

- The lightest solid roof on the market at just 31kg/m<sup>2</sup>
- Amazing thermal performance, U-Value of just 0.16
- Any shape, any size – event 5° lean-to's
- Fully fire tested
- Shaped glazing for stunning internal designs

- Simple to install – just like a conservatory roof
- Engineered to postcode climate
- Vaulted ceiling – ideal for extensions
- Internal pelmet and gutter cover available

## Glass Roof

The key benefit of using Wendland roof system is its flexibility, it can cope and accommodate any roof design and shape. The system offers a complete range of glazing options, including 24mm and 32mm with colour options including white, deepglas, rosewood and golden oak. Performance glass panels reflect the unwanted heat and glare from the sun in Summer and help retain warmth during the Winter months. Modern glazing improves thermal efficiency, reducing heating costs and ensuring you can enjoy your space all year round.

- Strong bars for greater spans
- Easy and quick to fit
- Lean-to projection up to 5.9m
- Any shape, any size
- Pitches from 5° to 41°

- 24mm or 32mm glazing
- Upgrades available - internal pelmet and gutter cover
- White, deepglas, golden oak and rosewood as standard
- Any RAL colour available
- Available with performance glass or polycarbonate or unglazed
